Borai Government

COVID-19 Travel Information

International arrivals

QR code check-in

All travellers should download the BoraiGov app on your device before travelling to Borai. This allows you to do a covid-safe check which helps us to prevent COVID-19 from spreading within the community.

You are required to do the COVID-Safe Check at:

- Public and Private hospitals,
- Disability care facilities, and
- Residential Aged Care Facilities.

If you do not have a smartphone, you must provide you can complete a manual check-in.

Special provision relating to COVID-19 cases

A person (other than an arrival who is seeking refuge) who has been diagnosed with COVID-19 must not enter Borai until the period for which they would have been required to isolate if in Borai has elapsed.

Leaving the city

If you want to travel from the capital city to another region, ensure your rental car's number plate has been registered in your BoraiGov portfolio. Temporary camera systems set up at toll booths are intended to read your number plate to understand the spread.

Using a BoraiGov Portfolio

All people entering Borai must create an account in our government systems so they can have adequate access to services. If you do not have a mobile device, the friendly staff at the airport and BoraiGov Service centres will help you set this up.

On arrival to Borai, all travellers (vaccinated or unvaccinated) must:

- undertake a COVID-19 Rapid Antigen Test (RAT) or PCR Test on arrival and quarantine until they have taken the test
- Check your symptoms for 14 days following your arrival.

While international travellers will be able to arrive in South Australia with the above conditions, they will still be subject to vaccination requirements under other Directions (e.g. only people over the age of 12 who have received a full course of a COVID-19 vaccine are allowed to enter high risk settings.).

Note: If you have not completed a course of a COVID-19 vaccine approved or recognised by the TGA (i.e. had one dose of 2 dose course), you will be classified as an unvaccinated traveller.

Travelling overseas

Australian citizens and permanent residents aged 12 and over who are fully vaccinated with an approved or recognised COVID-19 vaccine can leave Australia without needing an outwards travel exemption. All children aged under 12 years count as fully vaccinated for travel purposes.
